

UNTERLAND C5

THE COST-SAVING SOLUTION FOR YOUR BALE SILAGE

Coveris Flexibles Austria GmbH is one of the leading manufacturer of premium plastic films and offers innovative and top quality stretch films in the agricultural range for the wrapping of silage bales.

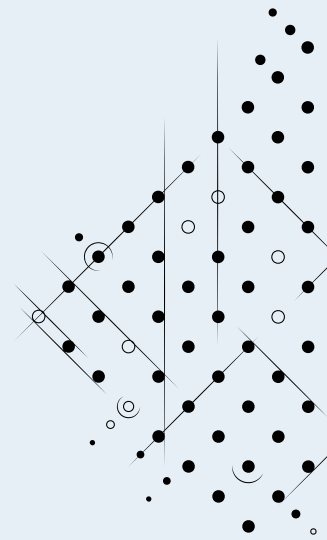

Developed with the Know-How from over 20 years of Agriculture film production, with "Unterland C5" Coveris Flexibles Austria GmbH offers a special 5-layer film. The state of the art production process enables us to produce a cost optimized film with the use of high quality resins.

BENEFITS

- Efficiency
- Excellent film quality
- Standard application
- Handling/Storage

HIGH PERFORMANCE SILAGE FILMS

AVAILABLE IN THE FOLLOWING COLOURS

black

green

white

ADVANTAGES

EFFICIENCY

Due to the special extrusion process (5-layer Cast) we offer you a cost efficient alternative to common Agristretch films.

EXCELLENT FILM QUALITY

Consistent film thickness, best tack behaviour and perfect runnability characteristics due to state of the art production lines and process.

STANDARDS

Use of high quality resins, UV-stabilization: protection for 12 months.

HANDLING/STORAGE

Excellent handling and storage possibilities of the silage bales due to one side tack.

TECHNICAL DATA

WIDTHS	500 mm	750 mm
ROLL LENGTH	1800 m	1500 m
PACKAGING	36 reels/ pallets	30 reels/ pallets
UV RESISTANCE	12 months, 110 - 220 Kly / year	

other dimensions / types on request

QUALITY & SERVICE

As an industry leader, Coveris Flexibles Austria GmbH is focussed on quality.

Under consideration of high quality standards care about the cost efficient factors is taken.

Raw materials and finished products are assessed on an ongoing basis in our in-house lab to ensure very high quality standards.

Every roll core has its own serial number to allow easy tracing of problems. Our application engineers are of course available to you at any time.
